## WELCOME TO THE LABELFREE CATALOG 2022

We are proud to present a catalog with a product range consisting of items you easily can brand as your own. The clothes are made in durable quality so it can be worn and washed several times without significant changes to either shape or color.

Our clothing line is proudly designed in Denmark and produced in Bangladesh, Pakistan, or China.

Most of the products you see in the LABELFREE catalog is certified GOTS or OCS-blended. Simply put, GOTS is for products made in 92-100% organic cotton and OCS-blended is for products in organic cotton mixed with virgin polyester.

In 2018 we started the process of converting into using organic cotton. The benefit of that decision is now evident since most of the products are either GOTS or OCS-blended certified.

It has always been a priority to act in a socially and environmentally responsible way.

## ORGANIC CERTIFICATIONS

The products made with organic cotton are GOTS or OCS-blended certified. We have made our own tag, a cotton flower, to keep track of the products. If you see the cotton flower in the care label, the product is made from organic cotton.

We have not added the GOTS or OCS logos in the care label, because if you embellish the product with print or embroidery, the certification will be invalid.

In the catalog it is easy to see which products are certified; logos are placed at the products it concerns. In some products we still have some colors and sizes left in conventional cotton, which we hope you will be helpful with buying first to avoid waste.

## BAGS MADE IN A RESPONSIBLE WAY

We can now offer you GOTS-certified bags.

We have different models in organic cotton and they are available in the following colors; nature, raw, and black. The bags made from organic cotton have a flag label in one of the sides, where you see the cotton flower and the text organic.

We have not added the GOTS logo to the bags, because if you embellish the product with print or embroidery, the certification is no longer valid.

Our Granite selection is a variety of bags in 100% recycled fabric made from fibers originating from used textiles and fabric waste from textile production.

## ORGANIC COTTON, RECYCLED POLYESTER & COTTON IN CONVERSION

It is important to optimize materials and products to give you the best possible experience with the product you use. Therefore, you will find products made from organic cotton, recycled polyester and organic cotton in conversion.

Organic cotton in conversion is organic cotton from farmers who are in the process of becoming organic farmers. This supports the development of and the farmers to become organic. By using organic cotton in conversion you help increase the number of organic farmers.

## LABELFREE

The clothing line you see in this catalog is meant for you to brand as your own. This is why it's called **LABELFREE**.

All the products are made with a small size label in the left side of the neck, leaving plenty of room for you to add your own logo and brand the product as your own.

## CLASSIC QUALITY PRODUCTS

All the products are designed and manufactured in a durable quality and can be washed many times without significant changes to the shape or color.

It is a deliberate choice to make classic products that can be used by many and easily can be customized with print or embroidery.

## PRODUCTION IN BANGLADESH

Most of the products you see in this catalog are produced in Bangladesh at the same reliable supplier we have worked with for more than 25 years. We firmly believe in the process of sustainable growth and development for mutual benefit, for supplier and its employees. This belief goes well with the process-oriented approach of the BSCI initiative, which we are also a part of.

Our top priorities are to improve the quality of the clothes and to act in an environmentally and socially responsible way.

## CERTIFICATIONS OF THE PRODUCTION

The factory in Bangladesh is BSCI, GOTS, OCS, OEKOTEX, Sedex and JAS-ANZ certified and the audits/certifications cover working conditions, social improvements, environmental issues, tests for harmful substances in the clothes, and many other aspects.

Some of the products are produced in Pakistan and China. These are mainly bags, aprons, jackets, caps and towels. The process towards socially and environmentally sustainability is ongoing.
